Guidelines for site visits

FIBAA is a European, internationally oriented agency for quality assurance and quality development, implementing accreditation procedures at HEIs on the basis of internationally recognised quality criteria. The fundamental assessment criteria for this are based on the principles of the [Bologna Declaration](#) as they were laid down in 1999 and later modified. Because of its close proximity to the business world, internationality and employability of graduates are of particular importance for FIBAA. FIBAA conducts the accreditation process with a claim to providing high quality work, transparency, and support for sustainable quality development at HEIs.

The assessment guide defines, which quality requirements have to be met to incorporate FIBAA's international guidelines:

1. [Standards and Guidelines for Quality Assurance in the European Higher Education Area](#),
2. [EQUAL MBA Guidelines](#),
3. [ECTS Guidelines](#),
4. "Dublin-Descriptors",
5. [Convention on the Recognition of Qualifications concerning Higher Education in the European Region \(Lisbon Recognition Convention\)](#)
6. [Decisions by the FIBAA Accreditation Committee for Programmes \(F-AC PROG\)](#)

The quality ratings define to what extent the FIBAA quality requirements have been met:

- Meets quality requirements
- Exceeds quality requirements
- Exceptional
- Does not meet quality requirements
- Not relevant

For a concept accreditation of a study programme too, the principle applies that it is to be assessed by the same criteria as an already established programme. Quality criteria which are essential for study programmes and marked (*) **as so-called asterisk criteria, must at least achieve the rating "Meets quality requirements"**. If any of these criteria is not met, this will lead to the imposition of a respective condition upon the accreditation. Other quality criteria assessed with a "not met" have no such condition as consequence, but lead to a recommendation, which does, however, not jeopardise the accreditation. The deadline for meeting conditions is usually nine months and can, in well-founded cases, be reduced or extended (once only and at the most by six months).

The FIBAA quality seal will be awarded if no more than seven asterisk criteria are not met and if, at the same time, criteria 1.1 and 3.1.1. are at least satisfied. If more than seven asterisk criteria have not been satisfied or/and the criterion 1.1. or/and 3.1.1. are not fulfilled, the accreditation will be refused, but can be applied for again after a waiting period of at least one year.

For established programmes, which have already graduated students and display a quality which far exceeds the FIBAA quality criteria, the FIBAA Premium Seal is awarded (see [Principles for the Award of the FIBAA Premium Seal](#)). This provides reliable information about the outstanding quality of the study programme to potential students, current students, graduates, HEIs, and prospective employers.

In the initial accreditation and re-accreditation of established programmes, the following aspects must be given particular attention:

- evaluation of the programme's success, using various means, including interviews with graduates and alumni-tracking studies,
- review of the calculations of the student workload in the individual modules,
- assessment of evaluation results,
- analysis of the statistical data relating to enrolment rate, examination results, graduation rate, first-year student count, and the percentage of foreign students.

As part of the re-accreditation procedure, the measures taken by the HEI in order to comply with the recommendations given in connection with the earlier accreditation must be reviewed together with all major changes concerning the study programme (i.e. changes to programme content, modularisation/ECTS, staff, equipment, cooperation agreements, etc.).

The qualification objectives of the programme are explained and convincingly presented in relation to the target group, targeted professional field and societal context of the discipline. They embrace academic proficiency, comprehensive employability, as well as the development of the individual student's personality.

The subject-specific and extra-curricular qualification objectives and skills to be acquired correspond with the aspired level at graduation. They take into account the requirements of the national qualification framework.

Exceeds quality requirements

The HEI systematically bases the qualification objectives of the programme on the specific requirements of the target group. The qualification objectives are documented in detail. They are constantly reviewed for their adequacy and up-to-dateness and are adapted accordingly.

1.2 International orientation of the study programme design (Asterisk Criterion)

Please describe the international orientation of the study programme concept and the selection of international aspects (note: the implementation of the programme concept is to be described in chapter 3.4).

Meets quality requirements

The programme design appropriately takes into account the required international aspects, with respect, too, to its graduates' employability.

Exceeds quality requirements

Owing to the emphasis of the programme design on internationality in teaching and study (e.g. in terms of curricular contents, academic staff, practical experience abroad), the programme, by imparting knowledge with that goal in mind and developing the concomitant skills, enables graduates to competently handle international tasks.

⁴ If no national qualification framework is available, the [QF-EHEA](#) is to be applied.
